TT RANGE (4P, 5P & 8P)

Our TT range of stock labels are produced using premium A-Grade Semi-Gloss material suitable for Thermal Transfer printing (ribbon required). The coated surface gives excellent print reproduction when used in combination with a suitable ribbon (please ask for a ribbon quote if required).

These are produced with a Permanent adhesive which has an upper service temperature of +60°C and a lower service temperature of -30°C. With a good initial tack these are suitable for use in a wide range of applications and environments. For advice on suitability please call and speak to a member of staff.

Specifications

4P

- 25mm inner core
- Outside wound
- 4" outer roll diameter

5P

- 25mm inner core
- Outside wound
- 5" outer roll diameter

8P

- 76mm inner core
- Outside wound
- 8" outer roll diameter

Compatible Printers

We have a wide knowledge base of printers and are able to advise what spec of roll will be suitable for your printer. By simply telling us your printer model we will be able to advise what range is the right specification to fit your printer. Some of the most common types of printers which are compatible with our lists are;

- Citizen
- Datamax
- Intermec
- Sato
- Toshiba TEC
- TSC
- Zebra

And many more.....

Items ending “-PERF” are the same specification as the rest of the range but these include a perforation between every label. The labels marked perf **only** come with perfs between labels in our stock range.

DT RANGE (4P, 5P & 8P)

Our DT range of stock labels are produced using premium A-Grade Direct Thermal material suitable for Direct Thermal printing (NO ribbon required). Suitable for short life labelling such as shipping and address labels.

These are produced with a Permanent adhesive which has an upper service temperature of +60°C and a lower service temperature of -30°C. With a good initial tack these are suitable for use in a wide range of applications and environments. For advice on suitability please call and speak to a member of staff.

Specifications

4P

- 25mm inner core
- Outside wound
- 4" outer roll diameter

5P

- 25mm inner core
- Outside wound
- 5" outer roll diameter

8P

- 76mm inner core
- Outside wound
- 8" outer roll diameter

Compatible Printers

What else do we do?

With over 2,500 cutters to choose from we are able to produce plain white labels in many sizes and specs to suit your needs. Should we not have the size you are looking for we can have tooling made specifically to your requirements at very reasonable prices. We also have a wide range of standard materials that we hold in stock so that we can offer fast turnaround on bespoke orders which include;

- Thermal Transfer Paper material: Matt Vellum, Semi-Gloss, Fluorescent Colours
- Direct Thermal material: Direct Thermal Eco, Direct Thermal Top Coat, Direct Thermal Synthetic Polyprop Matt White
- Thermal Transfer Polyprop (synthetic) material: Matt White, Gloss White, Gloss Clear
- Inkjet material: Inkjet Gloss Paper, Inkjet Matt Paper, Inkjet PP Matt White
- Board/Tag material: Available in both Direct Thermal and Thermal Transfer in various weights and finishes
- and many more....

The above materials in various adhesives from Non-residue Peelable through to extremely aggressive Permanent. Not every material is available in every adhesive, however we will always try and find an alternative should this be the case for you.

We also stock more speciality materials for more demanding applications and requirements such as outdoor environments, extreme temperatures, and heavy wear usage. Please ask a member of staff should you have such requirements.

Bespoke printed labels and tags

Using our range of printing presses, we are able to utilise the same 2,500 tools we use for plain labels and produce printed labels and tags with up to 8 colours per design. We also offer UV Printing & Varnishing, Metallic Inks, Over Laminating, Reverse Printing (for Tags and for labels requiring Sensor Marks), and dual cutter labels such as Tracking and Multi-part labels. We are also able to offer a design service should you have a new project and want to have your label made exactly as you want it. All our printed work is measured against the latest Pantone® books to ensure you get the accurate colours as shown on the artwork proof and confidence that you get the right label first time and every time you order.
